

## Demolition Requirements

Following are requirements for the purpose of carrying demolition on sites

### **1. Demolition Licence**

There are two types of demolition removal licences, DE1 and DE2. A DE2 licence is the minimum requirement for this scope of works

### **2. Permit or Notification from Work Cover**

A permit application needs to be submitted to Work Cover prior to demolition being carried out above 6m for mechanical demolition and above 12m for hand demolition.

### **3. Demolition Training**

Employees of the demolition company need to be properly trained in demolition procedures. As well as any specialised training in regards to equipment, machinery and environmental compliance.

### **4. Work Cover approved supervisor**

It is compulsory to have a Work Cover approved person, supervising the demolition, and any associates works.

### **5. Council compliance letter on completion**

This will sometimes be required by your local council to prove that the demolition has been carried out in accordance with the current local guidelines/standards.

### **6. Disposal docket for waste traceability**

The waste generator is responsible for the waste, not the removalist, so it is important to have waste traceability for your records.

**P&D Envirotech Pty Ltd complies with all of the above. If you would like to confirm any of the above or licence details ring the Work Cover Asbestos& Demolition Unit on (02) 8260 5885 or 131 050.**
